Listen again, nobody stay above the constitution, and I don't have to run behind my rights 20 years! I prove it here in this blog!!!

A judgment that is against the constitution is non existent, is void!!!

The judge is non existent, the court make him self void, ho choose to Judge against the constitution he is dereliction of duty, against his oath to protect and to serve the United State of America Constitution!!! They there him self down! Enemy of the State, organized Crime, deleting of evidences in an Crime case, planing and executing an crime in a Group, Thru the special education and experience under the Umbrella of the Law, with special cruelty. And the list is endless!!!

9 amendment, and the 10 Amendment is the reason why USA don't exist any more!!!
They change it in

10 Amendment

"The powers not delegated to the United States by the Constitution, nor prohibited by it to the States, are reserved to the States respectively, or to the people."

Its means the state is in absolute power, the people have no rights at all, the State decide that!!!!!! There in this sentence have to stay not "or", there have to stay "al for al to the People"!!! Ho change that, when ???

2 Amendment!!!

I affirmotive, as here defined person that this are my sentences ~~are~~ with all here defined meaning!
