This is for Israel how I see the Law there,

1. All are equal under the law, Declaration of Universal Human Rights,

you are Israel ! Pakistan not exist!

To have county you have to buy it from the Government of Israel, with paper! Otherwise you are homeless and an refugee, The Israel Government can evicting you and send you from where you come from, if you don't have paper! This stay's free to the Government to decide it, as foreign and without paper you will defined as non Israelite, if the borders are open and are without any control and regulation, It's means you accept the Government of Israel or not, al Laws and Government county assets belongs to them, Israel already exist and the paper are the international Maps as example what is also to seen as certificated document, former USA messt up and say that don't exist. I agree! Is was given an permit to expose that land map what it made it to certificate document, one of that!

Paper for city's certificated documented, states, country, the citizen agree to be loyal to the law and order and the management of the Israel Government, Declaration of Universal Human Rights!

You can not be Pakistan and Israel, there is just Israel! The UN already agree with that! I agree with that!

Occupied not buy it county is against the Law of Israel! And against Declaration of Universal Human Rights!

The Government is leaded from Prime Minister Benjamin Netanyahu, is from everyone accepted and made it to fact!

I sen to UN the proposal to take Kare about the refugees in Lebanon and Syria with life in dignity and under that what we understand as worthy.

I'm under torture with this device and peeeeping around brainwashing shit, I highly inform that it cost 12 trillion former USA dollar per second in resources, with the stock marked price! On the former Wall street 1/10/2024.

I, a firmative as here identified and defined,
this are my sentences with al my meaning.
