As known here in this ongoing stealing from the USA Government thru this device,

how I put to evidence and everyone knows the environmental problems are basic Human Rights,

out there was no solution and if than everyone steal from everyone is the question what future have man kind under the leadership of this people that already ignore everything and put everyone to pit that is more blessed that this individual, To solve also the entire oceanic problems cost among of research time, money,

and to put god creation in meaning again bag how God himself like it and is healthy for us, we developed things that works, what we here present and from al kind of people disagree with us, jealousy? In an meaning to steal also our wisdom and Knowledge, in an dimension that nobody believe, is to evaluate first the oceanographic current, the rain and dry period, and if you have the data together just ignore fools that have no solution for nothing and already try to steal from everyone like one of this children that don't make his homework and is test time have to look every time from somebody else because there in his had is emptiness.

No we evaluate that this people again spy and steal from those ho are able to change something how I already proved in God Name. This thing is not copy and past, it suppose to be a deeper knowledge because to evaluate the searching data you have to know what you search, and again we are on those children that are voided in his head and don't understand the necessary meaning of welt from God given and in his authority, Act-->Holy Book, again Homework....

The meaning of huge among of Data about the Ocean and the movement of fluid and Gas, exchanging chemistry between salt and CO2 and other chemistry elements, basic knowledge of the Period Table, have to look on it, also the PH value of the water, and I can do that as long as I wish for people that not able to understand that there is the possibility to build an Terra former to change the clime and the habitat Zone in an geographic meaning, for that is money and people necessary that are able and capable to do so with out anything that do other country and continents to pit!

Something that the Communism party's world wide don't get it, The church here as Catholic church defined, is already involved in coveting things that them not belongs to but I don't know 10 commandments? AAAAah I will be judged from this people? In what meaning and Authority I as King Richard The 3, Grandmaster Templar Knight, I'm less than an None??? O can judge the Eminence Pontifex Pope Francis the 8, or ho ever is talking in my device al the time!

If we see the damages on Barrier Reef, and other damages, world wide, also in the woods, thru poisoning the Ground with chemicals I, in Kingston < NY state, I propose that the charcoal suppose to be upgrade and used as active coal for washing the ground and the river, like an dam of active coal for the river. That charcoal can be made from leafs and other gras similar plant or tree parts on the ground, what you pay the people ho can take care about woods, in one side other side to collect this bio mater to transfuse it, I'm curios is something happening there since that or was everything stolen from me and so on.

God bless those ho reconise him as create and in charge!

I affirmotive this post is from me
