In Kingston NY state where I was more or less throw out, from a woman that I just...long story...I don't see it that he is a she, some how a trap,

but anyway, during there the autumn and the winter I figured out, because the cold to put grass together like a blanked and to made handwork, from things that are just nobody need and go broken with the time, one year plant that after that dry out and grow again new thru the seeds.

So there was some kind of similar Dollar store that I can bye for one dollar some wire to knitting on a frame not with sticks so that you can made an blanked to not freeze any more or other things like an bag pack to transport things! Also some camouflage blanked so that I will be not seen in the woods with leafs and sticks from the trees that I maybe was able to sell it for people ho go hunting or something like that. A small business is lited on social security number! Like for everything else what you need in U.S.A.!

Herby Affirmotive this are my sentences and meanings as I here defined and identified as the person here presented!
